### Organic Beauty Solutions for Beautiful Skin

Jennifer Lawrence created Adorable Beauty soon after becoming pregnant with her now 9-year old son. As with many mothers, having a baby completely changed Jennifer's outlook on life. In particular, she wanted the very best for her bonny boy, from the food she fed him to the products she put on his skin. In an effort to avoid putting chemicals on her baby's skin and to keep it silky soft, Jennifer created her very own natural solution - Adorable Beauty. All beauty products offered by Adorable Beauty are:

- **100% natural ingredients** - most of which is organically produced
- **Handmade** - with love and positive energy
- **Caring and gentle** - leaving the skin clean and soft
- **Naturally scented** - to uplift, calm, or stimulate your mood
- **Healing** - made to soften, soothe, hydrate, and regenerate skin cells
- **Added vitamins** - to encourage healthy looking skin
- **Affordable** - a little goes a long way
